PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in **Python, Django, PostgreSQL, Docker, and cloud deployment**. Skilled in **backend development, FastAPI, database design, debugging, testing, and software engineering fundamentals**. Experienced in building scalable web applications through internships and academic projects. Passionate about solving real-world problems using software and AI-driven solutions.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C++, SQL
- **Frameworks & Technologies:** Django, FastAPI, Node.js, Redis, Docker
- **Databases:** PostgreSQL, MySQL
- **Tools:** Git/GitHub, VS Code, Railway Cloud, Gunicorn
- **Core CS Concepts:** DSA, OOP, DBMS, Operating Systems, Computer Networks, SDLC

WORK EXPERIENCE

Software Development Intern | Softpro India Computer Technologies Pvt. Ltd. | March 2024 – November 2024

- Developed backend modules using Python and SQL for automation and data processing.
- Contributed to debugging, testing, and optimization of software components to improve performance and reliability.
- Collaborated with team members during development and troubleshooting activities to deliver efficient software solutions.
- Received “Best Project” recognition for contribution, execution, and overall project performance.

PROJECTS

BBD NIIT Online Examination System | [Live Demo](#) | [GitHub](#)

- **Role:** Backend Developer | Technologies: Python, Django, PostgreSQL, Redis, Docker
- Developed backend services and business logic for an online examination platform using Django and PostgreSQL.
- Implemented authentication, face-capture login verification, answer-key upload, and automated result generation features.
- Containerized and deployed the application using Docker, PostgreSQL, Gunicorn, and Render.

AI-Powered Train Traffic Control for Maximizing Section Throughput (Ongoing)

- **Role:** Backend Developer & Research Contributor | Technologies: Python, Django, MySQL, AI & Optimization
- Leading the design and development of an AI-assisted railway traffic management system focused on throughput optimization and operational efficiency.
- Designing conflict detection, train scheduling, and AI-driven decision-support modules for intelligent train movement management.
- Developing backend architecture, database schemas, and simulation workflows to support real-time railway operations analysis and decision-making.

EDUCATION

- **B.Tech in Computer Science & Engineering**
Babu Banarasi Das Northern India Institute of Technology | 2022 – 2026 | CGPA: 7.3
- **Intermediate** | New Wisdom Way Progressive Inter College | 2020 – 2022 | Percentage: 71.8%
- **High School** | New Wisdom Way Progressive Inter College | 2018 – 2020 | Percentage: 79.9%

CERTIFICATIONS and LANGUAGES

Python Programming Internship | CORIZO (Mood Indigo – IIT Bombay) | Jul 2025 – Aug 2025

- Completed internship focused on Python programming, logic building, problem-solving, and practical project development.
- **Languages:** English, Hindi
